

EFG Pulse

THE OFFICE PULSE

Every workplace has its own unique pulse. An ever-changing setup of work patterns, cultural behavior and office layouts. Pace, focus and work intensity shift throughout the day. We are digital, but we still need physical storage solutions, for personal- as well as shared items. And, as the last “personal base” to hold on to in the pulsating office.
Meet EFG Pulse Storage.

PERSONAL STORAGE FOR INDIVIDUAL WORK PATTERNS

The wide EFG Pulse range allows you to create a storage solution for every unique office space. Open storage, drawers and doors in different sizes can be combined into large or small solutions, placed in a cluster in the open office, along walls, by a personal workplace or used as a space divider. Plinths, legs and wheel-bases in different heights are available in a number of colours. All doors and drawers can be equipped with key-locks, code-locks or RFID-locks.

Selection of units:

S80D25C + SPL800

S16D35C + SPL1582

S80D36 + SMW800

RFID-locks available as standard, with optional programming. The system can be integrated with an existing RFID-system, such as entry doors etc.

Pulse personal storage unit in white pigmented ash veneer.

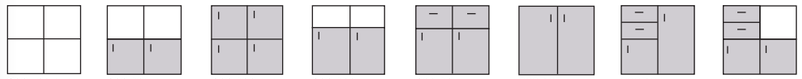

ASSORTMENT MODULES
